Introduction

MNRE has notified the National Bioenergy Programme up to FY 2025-26. The objective of the programme is to utilize surplus biomass, cattle dung, industrial and urban bio-waste available in the country for recovery of energy.

Benefit

MNRE is extending support in the form of Central Financial Assistance (CFA) for setting up of bioenergy projects. Further, the National Bioenergy Programme shall not only promote the utilization of surplus biomass in the country but also provide an additional source of income for farmers and rural households.

The National Bioenergy Programme comprises of the following schemes:

- Biomass Scheme** (scheme to support manufacturing of Biomass Briquette/Pellet and promotion of Biomass (non-bagasse) based Cogeneration) to support setting up of Biomass Briquette/Pellet plants for use in power generation and non-bagasse-based Cogeneration projects in industries.
- Biogas Scheme** to support setting up of family and medium-sized Biogas plants in rural areas.
- Waste to Energy Scheme** (scheme on energy from urban, industrial and agricultural wastes /residues) to support setting up of large Biogas, BioCNG, Syngas and Power plants (excluding municipal solid waste to power projects).
